Federal Communications Commission  
Washington D.C.

REFERENCE: April 2, 2007 Proposed Amendment of Section 73.99 of the Rules and Regulations  
Concerning Pre-Sunrise Service Authorization and Post Sunset Service Authorization for the  
AM Broadcast Service.

PETITIONER:

Mr. Edward A. Schober, PE  
RadiotechniquesEngineering, LLC.  
Po Box 367  
Haddon Heights, NJ 08035

Dear:

KDAZ Radio Pan American Broadcasting, a minority owned AM radio broadcasting station licensed in Albuquerque, New Mexico for the past thirty-six (36) years supports the proposals submitted by Petitioner: Mr. Edward A. Schober, PE outlined in his April 2, 2007 Petition for Rulemaking to the Federal Communications Commission. Approval of this proposed amendment would provide our station the opportunity to provide expanded service to our listeners at a time period when people are needing information as they travel to and from work and increases our stations ability to increase its commercial sales during these "Drive time hours" which in turn strengthens our financial viability as a licensed daytime AM radio station.

We respectfully request that the Federal Communications Commission approve each of the requested changes outlined in the proposed amendment to Section 73.99 of the Rules and Regulations Concerning Pre-Sunrise Service Authorization and Post Sunset Service Authorization for the AM Broadcast Service.

Sincerely,

Ted Gonzales  
Operations Manager
